

Safety Health & Environment Policy

We are committed to perform our activities in a manner, to ensure,

- Reduction and prevention of environment pollution.
- Conservation of resources on an ongoing basis.
- Prevention of injury and ill health.
- Compliance of relevant applicable legal and other requirements.
- Provision of safe and healthy working conditions.
- Elimination of hazards and reduce risks.
- Consultation and participation of all employees and their representatives.
- Sustainable use of resources, climate change mitigation, adaption and protection of
- biodiversity and ecosystems.
- Continual improvement.

The above shall be achieved by establishing and reviewing objectives and targets, provision of resources and training to all relevant personnel.
